### Rapid Success Tutoring, LLC

In 2003, Stephanie Turnbach, a teacher and busy mother, recognized the need for one-on-one tutoring in the student's home. She also understands the importance of matching each child's learning style to just the right tutor. As well as helping with schoolwork and test preparation, Stephanie believes "tutors serve as positive role models in each student's life." Stephanie has taught in both public and private schools in the Baltimore area, and helped to create and implement curriculum for adults. She founded Rapid Success Tutoring, she says, with the goal of making a difference in student's lives and making parent's lives less hectic.
